

OKTA: Add another device with OKTA Verify

1. **Log in to your Okta account (nazarene.okta.com)** on your computer or current device.
2. **Navigate to Settings:**
 1. Click on your name or profile icon in the upper right corner.
 2. Select **Settings** from the dropdown menu.
3. **Find Okta Verify:**
 1. Scroll down to the **Security Methods** section.
 2. Locate Okta Verify and click **Set up another**.
4. **Authenticate:**
 1. You may be prompted to authenticate your identity. Follow the instructions to complete this step.
5. **Generate a QR Code:**
 1. Once authenticated, click **Set Up**.
 2. A QR code will appear on the screen.
6. **Install Okta Verify** on your new device.
7. **Add the account:**
 1. Open Okta Verify on your new device.
 2. Press **Get Started**
 3. Press **Next**
 4. Press **Add Account**
 5. Choose **Organization**
 6. Press **Skip** on the Add Account from Another device
 7. Scan QR Code from nazarene.okta.com by pressing Yes, Ready to Scan
 8. **Allow** Access to the camera
 9. **Allow** Push Notifications
 10. It is recommended to not enable Face ID or Passcode Confirmation. Press Not Now
8. **Complete the setup:**
 1. Follow any additional instructions to finalize the setup.
 2. Your new device should now be added to Okta Verify.
